

Langflow

How to install Lang flow

Step1 – Install Microsoft C++ Build Tools

Please Install Microsoft C++ Build Tools

Follow the steps below:

1. **Download the Visual Studio Installer**

Visit the official Microsoft Visual Studio website and download the installer.

2. **Run the Installer**

Launch the Visual Studio Installer after downloading.

3. **Select the Workload**

In the installer, select the "**Desktop development with C++**" workload.

4. **Install the Workload**

Click **Install** to begin the setup. This will install the required C++ build tools.

5. **Restart the Original Installer (if applicable)**

Once the installation is complete, **restart the installer** you were initially using (if it prompted this step).

Step2 – Download and install langflow msi file from

<https://drive.google.com/file/d/1jinRw4Sva5nG7znfO6zTpLPnwOYiilqO/view?usp=sharing>

Step3 – Explore <https://docs.langflow.org/> how to create different types projects using langflow.
